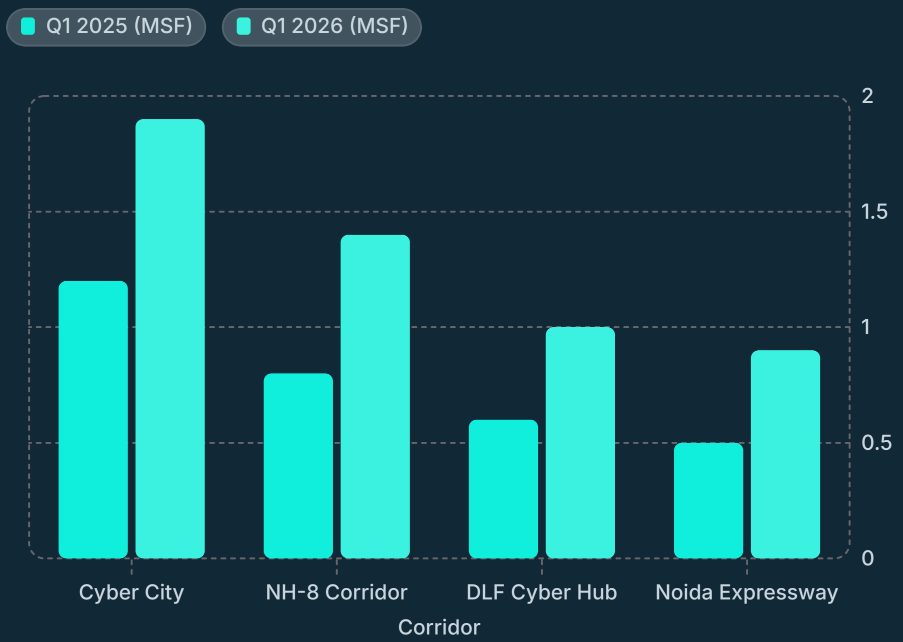
OFFICE LEASING PERFORMANCE

Leasing Volume by Corridor: Q1 2025 vs Q1 2026



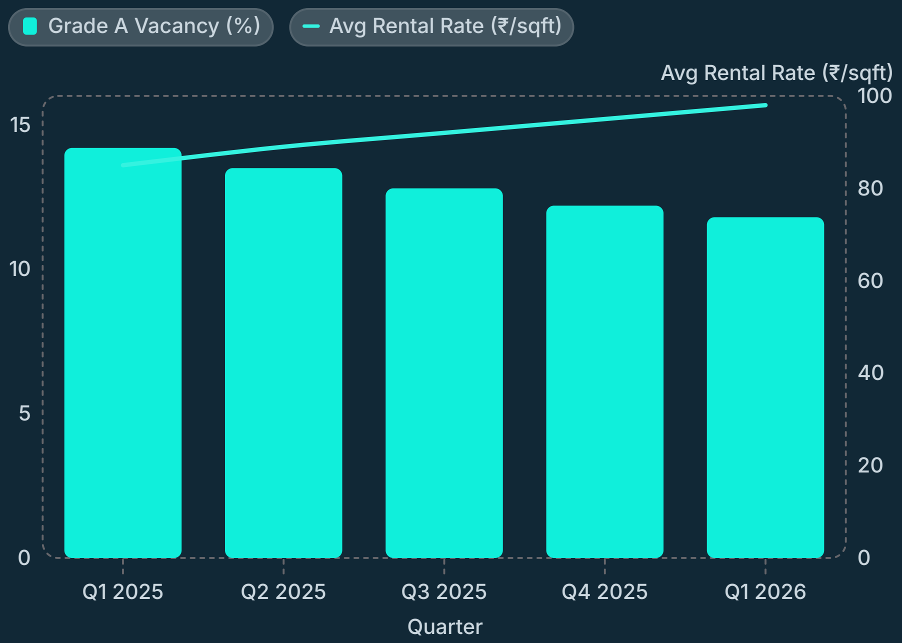
NH-8 Leads All Corridors at +30% YoY

GCC sector expansion is the primary driver, with Cyber City adding +26% and DLF Cyber Hub +18%. All four tracked corridors posted double-digit growth — a strong demand signal across the NCR market.

- **NH-8 Corridor:** +30% YoY — fastest-growing corridor
- **Cyber City:** +26% YoY — sustained GCC demand
- **Noida Expressway:** +25% YoY — emerging corridor
- **DLF Cyber Hub:** +18% YoY — premium stability

VACANCY & RENTAL TRENDS

Grade A Vacancy Compressing — Rents Rising



240 bps Vacancy Compression Over 4 Quarters

Grade A vacancy has declined from 14.2% to 11.8%, while average rental rates climbed from ₹85 to ₹98/sqft — a clear sign of demand outpacing supply. Signal progression: **Stable → Strong**. Current rental yield stands at **13.8%**.

- Vacancy compression: **-240 bps** over 4 quarters
- Rental appreciation: **+₹13/sqft** (15.3% growth)
- Current rental yield: **13.8%**

RESIDENTIAL MARKET OVERVIEW

Residential Micro-Markets: Price & Affordability Q1 2026

Micro-Market	Segment	Avg Price (₹/sqft)	YoY Appreciation	Affordability Index
Dwarka Expressway	Luxury	₹16,800	+20.0%	68
Manesar	Mid-Segment	₹9,800	+15.3%	**84 — Most Affordable**
New Gurgaon	Premium	₹13,800	**+25.5% — Highest**	72
SPR Corridor	Ultra Luxury	₹19,200	+20.0%	**58 — Stressed**

New Gurgaon leads appreciation at +25.5% YoY; **Manesar** remains the most accessible entry point with an affordability index of 84.

EARLY WARNING DASHBOARD

Corridor Risk Signals — Q1 2026

Risk Classification

The Early Warning Dashboard monitors 8 active corridors across NCR, assigning risk scores based on supply-demand balance, absorption velocity, and pipeline exposure. Scores range from 1 (healthy) to 10 (critical alert).

- **Green — Healthy:** NH-8 (1/10), DLF Cyber Hub (2/10), Manesar (1/10)
- **Amber — Watch:** Cyber City (4/10), Dwarka Expressway (5/10), Golf Course Ext (5/10), Sohna Road (7/10)
- **Red — Alert:** Noida Expressway (10/10), SPR Corridor (10/10)

⚠️ **Alert:** 2 corridors flagged — supply pipeline exceeds demand run rate by 300K sqft. Quarterly monitoring of Noida Expressway and SPR Corridor is recommended before new investment commitments.

CONCLUSIONS & OUTLOOK

Q2 2026 Market Outlook

Office: Positive

GCC and IT-BPM demand continues to drive absorption across all major corridors. Outlook remains bullish for Q2.

Residential: Strong

Luxury and mid-segment demand remains healthy. New Gurgaon leads appreciation at +25.5% YoY.

Vacancy: Compressing

Grade A market tightening — 240 bps reduction over 4 quarters. Rental yield at 13.8%.

Risk: Stable Overall

2 corridors under watch. Monitor Noida Expressway and SPR Corridor before new commitments.

Recommended Action: Continue quarterly monitoring of Noida Expressway and SPR Corridor risk scores before committing to new investment or leasing strategies in those zones.
